15	1	Net	24804-R15
16	1	Strike Zone Ribbon	24804-R16
17	24	Bungees	24804-R17
18	4	Ground Stakes	24804-R18

Assembly:

Please remove all components from the package and confirm that all parts are included. Please reference the frame assembly diagram below (see Figure 1):

- Attach all of the tubes together to assemble the frame as pictured in the assembly drawing. During the frame assembly, make sure to attach the height adjusters in between tubes 8 & 9 and 8 & 10. Twist the Height Adjusters to tighten and loosen. Measurement lines have been provided on the back of tubes 9 & 10 so the pitch return can be adjusted evenly on both sides. Attach poles 8 to hinge 11 and 8 to hinge 12 with the bolts and wing nuts as shown in figure 2.

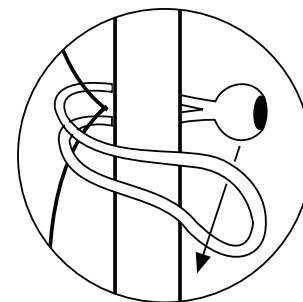

To attach the net:

Spread out the net and find the red tabs. Red tabs indicate the corners. Start with one corner and attach bungee cord (see figure 3). Follow by attaching remaining three corners. Start at top of the frame and attach three bungee cords across, spreading them evenly. Repeat on bottom, then the side poles. Repeat until all bungees are used.

WARNING:

Use extreme caution when assembling the net to the frame. The bungees will be under extreme tension and must be attached carefully. Adult assembly is strongly recommended.
