

STANDARD PLAY

2-8 Players are each assigned a peg number

Players earn 5,3,1,0 points (corresponding to where the bag lands on the board, if the bag gets hung up in the hole points are awarded for that hole)

Player 1 begins by throwing all four bags, moves his or her peg according to the number of points scored in that turn, and then passes the bags to player 2 and so on.

Once one player scores 22 points or more, all other players who have not had an equal number of turns will get one additional attempt.

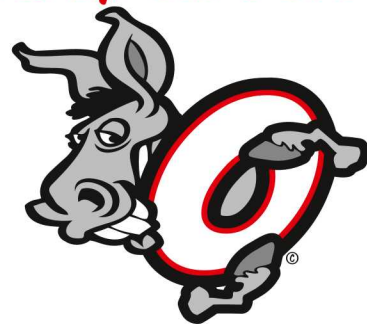

Should more than one player score 22 points in the same turn, the player with the highest score wins - if a tie occurs, players throw all four bags and the highest score wins.

At any time should any player reach -10 they are out!

A player will receive a (-1) for each bag that does not remain on the game, or making contact with anything other than the game.

Board may be hung or placed on a surface **42"** from the bottom of the board to the ground
TOP OF (WALL MOUNT CLEAT) MOUNTS AT **63"** OFF THE FLOOR
Throwing distance is **11'4"** from the back of the game base board

40 EVEN

2-8 Players are each assigned a peg number

Players earn 5,3,1,0 points (corresponding to where the bag lands on the board, if the bag gets hung up in the hole points are awarded for that hole)

Player 1 begins by throwing all four bags, moves his or her peg according to the number of points scored in that turn, and then passes the bags to player 2 and so on.

Once one player scores 40 points exactly (player must throw all four bags, if score is over 40, you go back to 22) all other players who have not had an equal number of turns will get one additional attempt.

Should more than one player score 40 points in the same turn, those players throw all four bags and the highest score wins.

At any time should any player reach -10 they are out!
