Care and Maintenance

- Your product must be stored dry. Storing your product while damp or wet could cause damage to the fabric. Storing a wet blind as briefly as 24 hours in warm weather is likely to cause mildew on the fabric coatings and is not covered by the limited warranty.
- If you must close the blind in the rain, open your product and set it up to allow it to dry as soon as possible. Allow dirt to dry on the fabric after a rainfall before lightly sweeping it off with a brush. For tougher stains, spray the area with water and lightly wipe it off with a few strokes. Do not use washer or dryer. **DO NOT SCRUB THE FABRIC. ALWAYS MAKE SURE THE BLIND IS COMPLETELY DRY BEFORE REPACKING.**
- Do not leave your blind set up for weeks at a time. Exposure to ultraviolet rays from the sun can damage and/or discolor the material.
- Clean the poles with a cloth and lubricate them with a silicone spray to help prevent corrosion and keep from being gritty.
- Store the stakes in the separate storage bag. Do not pack the stakes inside the blind.
